Patent & Trademark Office via Electronic Filing through the United States Patent and Trademark  
Office e-business website, on May 26, 2009.

Dated: May 26, 2009

  
Steven Fischman

The Declarant, Erika Flores, is the manager of the docketing department at the law firm of Scully, Scott, Murphy & Presser PC. I affirm that the following sequence of steps accurately sets out the firm's procedure for processing all communications received from the U.S. Patent and Trademark Office in the firm's mail room.

1. Mail, including all PTO communications, is received from Post Office in the firm mail room.
2. Mail room personnel sort the mail according to the specific department. During this process the PTO communications are separated from the bulk of the mail and delivered directly to the docketing department.
3. Docketing personnel receive Office Actions and other PTO communications, and sort them according to due date.
4. A Data Sheet specific for firm use is attached to the PTO communication, and placed in the firm's file for the relevant application. Usually, the PTO communication is fastened to the outside of the file by thick rubber bands.
6. The Office Action is docketed for the particular due date and placed on the corresponding attorney's docketing pile for review.
7. After the Office Actions are reviewed they are entered into the docketing software database, CPI, and then signed out to the appropriate secretary
8. Secretary docket the due date of response on their attorneys' docket.

A handwritten signature in black ink, appearing to be 'E. Flores', written over a horizontal line.

Erika Flores  
Manager of Docketing Department
